

## Figure Out the Force of Flight

This activity was created by Robyn.

All living things and devices that fly must overcome the force of gravity. There is one force that they all need sufficient amounts of to overcome gravity!

Go through the hints below and see if you can guess what this force is called!

HINT #1

Hmmm... What could it be? Do you have a first guess?

\_\_\_\_\_

HINT #2

Interesting... Do you still think it's the same thing or any new guesses?

\_\_\_\_\_

HINT #3

There are four letters in this word.

Well then.... Do you know what it is?

\_\_\_\_\_

HINT #4

It starts with the 12th letter of the alphabet.

What's your final guess?
