Habitat Hunt

This activity was created by Brandi

Search for the items below in YOUR habitat / community, then sort each item into categories depending on whether you think it is human-made or not!

- | | |
|---|---|
| <input type="radio"/> Prickly pine cone | <input type="radio"/> Chirping robin |
| <input type="radio"/> Lamppost | <input type="radio"/> Recycling bin |
| <input type="radio"/> Bright red fire hydrant | <input type="radio"/> Sweet smelling flower |
| <input type="radio"/> Maple leaf | <input type="radio"/> Funny street name |
| <input type="radio"/> Birch tree | <input type="radio"/> Stop sign |
| <input type="radio"/> Piece of litter | <input type="radio"/> Unique rock |
| <input type="radio"/> Stinky garbage can | <input type="radio"/> Speedy car |
| <input type="radio"/> Busy bus stop | <input type="radio"/> LOUD truck |
| <input type="radio"/> Park bench | <input type="radio"/> Tall tree |
| <input type="radio"/> Basketball court | <input type="radio"/> Very small tree |
| <input type="radio"/> Pine tree | <input type="radio"/> Swings |
| <input type="radio"/> Body of water | <input type="radio"/> Green grass |
| <input type="radio"/> Fence | <input type="radio"/> Soccer field 200x the size of you |
| <input type="radio"/> Cedar bush | |

Putting items into categories is an important computer science skill. Sorting can help you break a hard problem into an easier one, or manage big sets of information more easily.
